DIVISION OF
OIL, GAS & MINING

NOTICE OF INTENTION TO COMMENCE SMALL MINING OPERATIONS

The informational requirements of this form are based on provisions of the Mined Land Reclamation Act, Title 40-8, Utah Code Annotated 1987, and the General Rules as promulgated under the Utah Minerals Regulatory Program.

"Small Mining Operations" means mining operations which disturb five or less surface acres at any given time.

I. GENERAL INFORMATION (Rule R647-3-104)

1. Name of Claim/Mine: Kelly Hall
2. Name of Operator/Applicant: Kelly B. Hall
Company () Corporation () Partnership (x) Individual ()
3. Permanent Address: 345 EAST 400 South
City: AMERICAN Fork State: Ut Zip Code: 84403
Telephone Number: (801) 756 3185

4. Ownership of Land Surface:

Private (Fee) ☐ Public Domain (BLM) ☐ National Forest (USFS) ☐
State of Utah ☒ Other: _____

5. Ownership of Minerals:

Private (Fee) ☐ Public Domain (BLM) ☐ National Forest (USFS) ☐
State of Utah ☒ Other: _____

Utah Mining Claim Number(s): _____

Utah State Lease Number(s): 46086

6. Have the above owners been notified in writing? Yes _____ No _____
If no, why not? _____

7. Does the operator have legal right to enter and conduct mining operations on the land covered by this notice? Yes X No _____

II. PROJECT LOCATION & MAP (Rule R647-3-105)

1. Project Location (legal description):

County(ies): _____

S 1/4 of 1/4, of 1/4: Section: 16 Township: 6 S Range: 24 E.
____ 1/4, of 1/4; of 1/4: Section: _____ Township: _____ Range: _____
____ 1/4, of 1/4, of 1/4: Section: _____ Township: _____ Range: _____

UTAH COUNTY

2. A topographic base map showing the location of the proposed small mining operation must be submitted with this notice. A USGS 7.5 minute series map is preferred. The areas to be disturbed should be plotted in sufficient detail so that they can be located on the ground. It is recommended that the operator also plot and label any previous disturbances in the immediate vicinity that he is not responsible for.

III. OPERATION PLAN (Rule R647-3-106)

1. Type of mining: Surface ☒ Underground ☐

2. Mineral(s) to be mined: Gold + Silver

3. Provide a brief description of the proposed mining operation and onsite processing facilities. see attached page

New Road(s): Length _____ (ft) Width _____ (ft)

Total project surface acreage to be disturbed: 5 (acres)

IV. OPERATION AND RECLAMATION PRACTICES (Rule R647-3-107, 108 & 109)

The reclamation and operation obligation is to keep the area clean and safe, minimize hazards to public safety, return the land to a useful condition, and reestablish at least 70 percent of the premining vegetative ground cover. To accomplish this, the operator will need to perform reclamation concurrently, or at the completion (within one (1) year) of mining:

1. Keep the mining operation in a safe, clean, and environmentally stable condition.
2. Permanently seal all shafts and tunnels to prevent unauthorized or accidental entry.
3. Plug drill holes with a five foot cement surface plug. Holes that encounter fluids are to be plugged in the subsurface to prevent aquifer contamination.
4. Construct berms, fences, or barriers, when needed, above highwalls and excavations.
5. Remove, isolate, or neutralize all toxic materials in a manner compatible with federal and state regulations.
6. Remove all waste or debris from stream channels.
7. Dispose of any trash, scrap metal, wood, machinery, and buildings.
8. Conduct mining activities so as to minimize erosion and control sediment.
9. Reclaim all roads that are not part of a permanent transportation system.
10. Stockpile topsoil and suitable overburden prior to mining.
11. Stabilize highwalls by backfilling or rounding to 45 degrees or less, where feasible; reshape the land to near its original contour, and redistribute the topsoil and suitable overburden.
12. Properly prepare seedbed to a depth of six inches by ripping, discing, or harrowing.
13. Reseed disturbed areas with adaptable species. (The Division recommends seeding 20 lbs./acre of native and introduced species of grass, forb, and browse seed, and will provide a specific species list if requested.)
14. Plant the seed with a rangeland or farm drill, or if broadcast seeded, harrow or rake the seed 1/4-1/2 inch into the soil - fall is the preferred time to seed.

V. VARIANCE REQUEST (Rule R647-3-110)Yes ☐ No ☒

Any planned deviations from Rules R647-3-107, Operation Practices, R647-3-108, Hole Plugging Requirements, or R647-3-109, Reclamation Practices, as summarized above, should be identified below and justification given for the variance request(s).

VI. SIGNATURE REQUIREMENT

I hereby commit to conduct mining operations and to reclaim the aforementioned small mine as required by the Utah Mined Land Reclamation Act (40-8) and the rules as specified by the Board of Oil, Gas and Mining.

Signature of Operator/Applicant:

Kelly B Hall

Name (typed or printed):

Kelly B Hall

Title/Position (if applicable):

Date:

Sept 14 1993

PROPOSAL BY KELLY B. HALL AND GEORGE HACKFORD

We propose to mine approximately six hundred (600) tons of mineral ore from this site: the South half of Section 16, Township 6 South, Range 24 East, SLB&M; and then to transport the material to Vernal, Utah. Vernal is about 20 miles west of this property.

We plan to process the mineral ore in a closed building in Vernal during the winter months. We will stockpile the topsoil and overburden for use when the land is reclaimed.

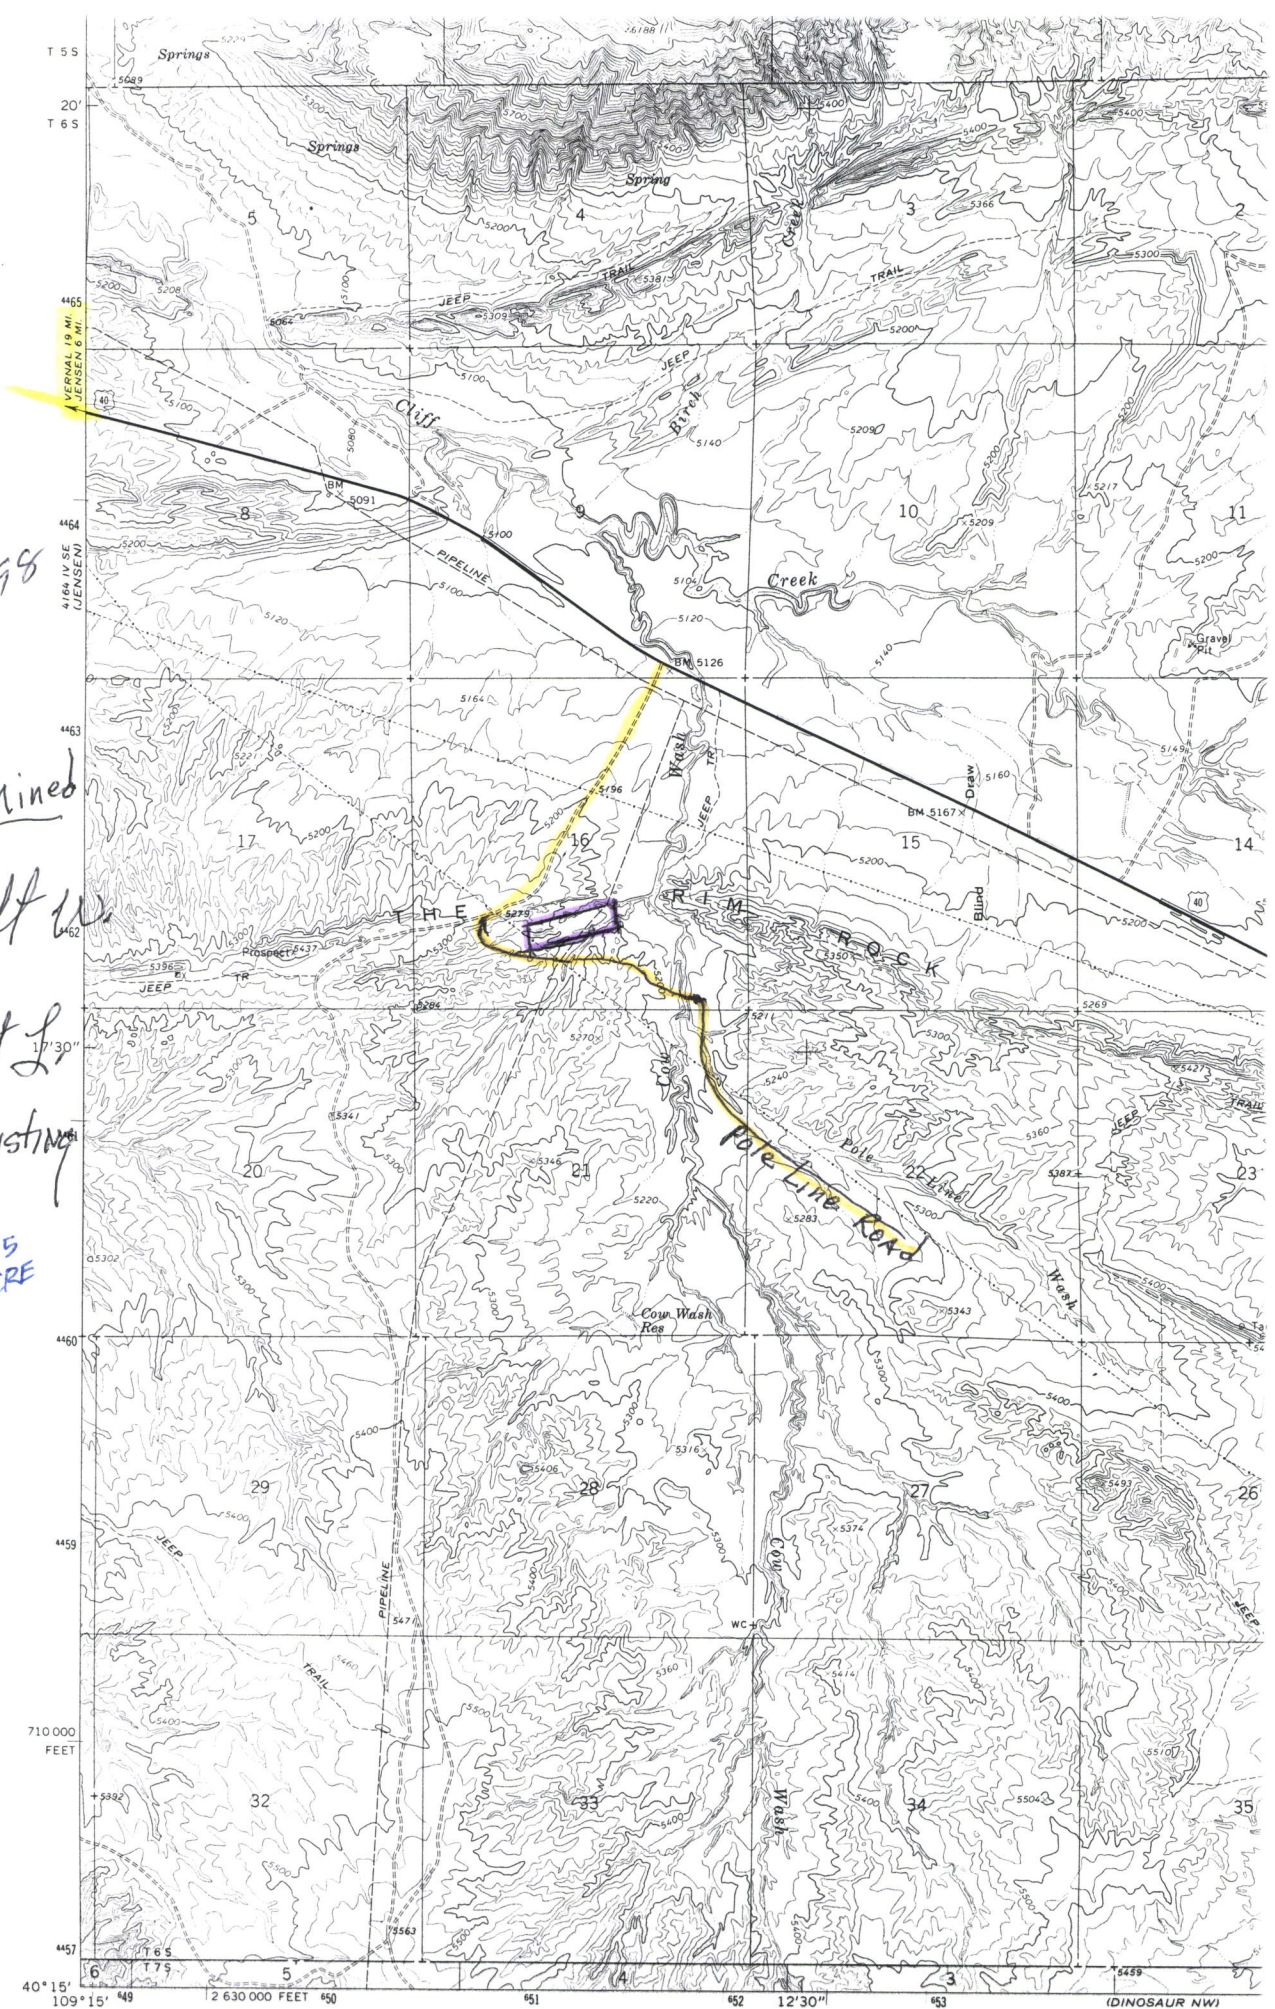

In this proposed mining operation we will comply with all state and federal regulations.

PROPOSAL BY KELLY B. HALL AND GEORGE HACKFORD

We propose to mine approximately six hundred (600) tons of mineral ore from this site: the south half of Section 10, Township 2 South, Range 24 East, 51E 11; and then to transport the material to Mineral, Utah. Mineral is about 10 miles west of this property.

We plan to process the mineral ore in a closed building on land during the winter months. We will stockpile the material on the overburden for use when the land is reclaimed. In our proposed mining operation we will comply with all state and federal regulations.
